What is PA Forward and How is it Affecting Your Library?

Community Library of Allegheny Valley

What is PA Forward?

Pennsylvania Libraries is a new initiative of the Pennsylvania Library Association. It was created to give voice to what the library community already knows, and what other states throughout the nation are also recognizing: With the right support, libraries are ideally positioned to become the community centers of information, technology, and learning that will fuel educational and economic opportunity for all citizens. Libraries are no longer just buildings that house books. Today's libraries are agile institutions serving real-life needs. PA Forward and the Commonwealth's Libraries PA Forward will make library services available for all Pennsylvania citizens; strengthen state supported library services and leverage greater local and private support. For public libraries, PA Forward will position them as essential to a growing customer base of private and municipal organizations and individuals and as high-quality early learning providers that ultimately save taxpayer dollars otherwise needed for remedial programs. PA Forward will ensure that libraries have the resources they need to keep Pennsylvania moving forward.
